Like the Bee-Bot Online Emulator?

Using actual Bee-Bot or Bluetooth-enabled Blue-Bot robots can be even more fun! Terrapin offers Bee-Bots, Blue-Bots, learning mats, and accessories, individually or in discounted bundles.

Try the Kinderlogo 30-Day Free Trial to introduce your young learners to a different type of coding experience. These fun and creative activities feature the Logo language's legendary turtle!

Welcome to the Bee-Bot Online Emulator from Terrapin!

Program a virtual Bee-Bot to traverse the mat.

Button	Meaning
	Code a path for Bee-Bot to follow across the mat. Commands appear in the orange bar as you select them. Click any command and click "Delete Cmd" to delete it.
	Make Bee-Bot pause for two seconds.
	Start over and create a new program.
	Watch Bee-Bot follow the commands step by step.
	Stop Bee-Bot during a program.
	Move Bee-Bot to the original starting position.
	Save your commands to your Downloads folder; click Load to get them back.

Have fun!
